

**PETITION FOR REVIVAL OF AN APPLICATION FOR PATENT ABANDONED  
UNAVOIDABLY UNDER 37 CFR 1.137(a)**

3. Terminal disclaimer with disclaimer fee
- ☐ Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.
- ☒ A terminal disclaimer (and disclaimer fee (37 CFR 1.20(d)) of \$ 65.00 for a small entity or \$ \_\_\_\_\_ for other than a small entity) disclaiming the required period of time is enclosed herewith (see PTO/SB/63).
4. An adequate showing of the cause of the delay, and that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition under 37 CFR 1.137(a) was unavoidable, is enclosed.

**WARNING:**

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

(In the space provided below, please explain in detail the reasons for the delay in filing a proper reply.)

**"Renewed Petition under 37 CFR 1.137 (a)."**

(4) A showing by the applicants, for the Director, that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(a) was unavoidable;

Applicants received a Office communication mailed October 21, 2003, that set a one month statutory time period for reply. Applicants is regretted for not replying to the Office Action timely, because it became Unavoidable. The unavoidable reasons are as follows;

(1.) In the examiners (Edwyn Labaze), Acknowledged Interview, Office letter dated October 21, 2003, that it became clear during the telephone interview (assisted by Karl Frech) on 8/15/2003 that the pro-se inventors was not versed in Patent Law or Patent Office Procedure. Due to the applicant's lack of "understanding", applicants did attempt to properly respond in their letter file dated 4/16/2003.

(2.) The reply filed on 4/16/2003 is not a fully responsive to the prior Office action because of the omission(s) or matter(s) a formal and proper amendments. Since the above mentioned reply appears to be bona fide, applicants were given Thirty (30) days from the mailing date of the notice, within which to supply the omissions or corrections in order to avoid abandonment. Extension of time could be Granted Under 37 CFR 1.136 (a).. At the time, applicants received the Office Action dated October 21, 2003, Applicants inventors was not versed in Patent Law and Patent Office Procedure and due to applicants lack of "understanding", the applicants did not understand the suggestions made, by the examiners, to follow the proposed claims provided by the examiner.

(3.) Upon review and interview. The examiner therefore suggest the following claim(s) drafted by the examiner from all the information as provided in the original presentation of the claim(s) and specifications.

(4.) If the proposed claim(s) was/were to be officially presented by the applicants before the examiner for prosecution, they would be rejected as presented, as they were. The examiner provided a proposed claims for the applicants. Applicants believe they have now written and can supply the proposed claim(s) ask for by the examiner. In the Proposed Claims filed previously on 6/29/2007.

(5.) The applicants, from the interview on 8/15/2003, did request for some help regarding the claim(s). The examiner complied to the best of his ability with that which was presented, by supplying applicants with the proposed claims format. At the time applicants could not comprehend the information ask for, by the examiner, due to lack of understanding, on the applicants part. Pro-se inventors are not well versed in Patent Law and the Patent Office Procedure.

(6.) Attorney\_ Although suggesting attorney is normally reserved for pre-se applicants when the examiner believes that applicants would benefit with the claimed invention (i.e. ultimately receive allowable claims), in this case the applicant may wish to contact a (additional sheets attached)

Application No. 09/973,626 :  
Filed: January 10, 2002 :  
For: Taylor Corp. Pre-Paid Cash :  
Cards Unlimited :

**“ Renewed Petition under 37CFR 1.137”**

A grantable petition under 37 CFR 1.137 (a) must be accompanied by:

- (1) the required reply, unless previously filed;  
Is enclosed.
- (2) the petition fee as set forth in 37 CFR 1.17 (1)
  - 1.) Petition fee; Small entity - fee \$250.00  
has previously been filed.
  - 2.) Reply and/or fee
    - 2.) (A) The reply and /or fee to the above-noted Office Action in the form of  
**“ Renewed Petition under 37 CFR 1.137 (a) ”** ( identified type of reply)  
has been filed previously on 6/29/2007 .
    - (B) The issue fee of \$140.00  
has been previously on 7/24/2007
- (3) any terminal disclaimer ( and fee set forth in 37 CFR 1.20 (d)  
required pursuant to 37 CFR 1.137 (c ). Small entity - fee \$65.00  
has been filed previously on 6/29/2007
- (4) a showing to the satisfaction of the Director that the entire delay in filing  
the required reply from the due date for the reply until the filing of a grantable  
petition pursuant to 37 CFR 1.137 (a) was unavoidable; is enclosed
- (5) Any renewed petition should properly set forth the relief sought.  
Relief sought by applicants are (attached) . Is enclosed
- (6.) Applicant Inventors agree to pay other fees required by the Patent Office  
of this case.

professional (external the USPTO) for basic advice. The applicants have been at a lose, in acquiring any patent professional help, for any basic advice. Applicants have many times tried to acquire help from patent attorneys, they have not wanted to be involved in our acquiring a patent, they say, because, that we already own a registered copyright and a published patent application, "because we are already the owners". That they, only do patents, for their selves . And I have tried, talking with several patent attorneys and have received no help. Applicants live in a area 200 miles from the nearest Patent Attorneys, and the cost of a attorney and travel are more expensive, than applicants can pay.

### *Interview Summary*

All participants (applicant, applicant representative, PTO personnel): Date of Interview: 15 August 2003.

(1) Edwyn Labaze. (2) Karl Frech. (3) John D. Taylor. (4) Steve K. Taylor.

Type: a) Telephonic 1) Applicants

Agreement with respect to the claims f) was reached.

Substance of interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: As per the applicant's request. I, Examiner Edwyn Labaze along with Mr. Karl Frech, agreed to provide a formal claim format to the applicants claimed invention. The examiner did provide a formal claim format for the applicants, as agreed, to the applicant's claimed invention. At that time, due to lack of understanding pro-se applicants did not fully understand how to fill out the proposed claims format provided by the examiner. (A fuller description, was necessary, and a copy of the amendments which the examiner agreed would render the claims allowable was not attached, by the applicants, but a reply was sent. The applicants reply filed on 4/10/2003 was not a fully responsive to the prior Office Action because of the following omission(s) or matter(s): A formal and proper amendment of the claims, one reason in detail for an unavoidable delay in filing a proper reply is because applicants did not know how to properly fill out the proposed claims form provided by the examiner. The pro-se inventors was not versed in Patent Law or Patent Office Procedure. Due to applicants lack of "understanding" on my part. And I deeply regret any delay that I have caused the Office and time lost. The examiner tried to the best of his ability, to help me, but Office Rules and regulations does not allow the examiner to "invent", i.e. add new or non -previously claimed or specified elements on to the original specifications, but the examiner did furnish a proposed claims format, as all he could do, on that part. Applicants did request for some help regarding the claims, and the examiner supplied the proposed claims format.

I, John Taylor, many times have read over the proposed claims format, and only recently came to the understanding, of what the examiners were asking for, in the proposed claims format. It became completely "unavoidable" for me to comply to something, I did not understand, of what it was I needed to do, in order to comply to the Office a grantable proposed claims, by and from the applicants.

Applicant, John D. Taylor, recently filed a Information Disclosure statement on July 5<sup>th</sup>, 2007 .

The cause of unavoidable delay and the reasons for the delay in filing a proper reply also are;

Due to circumstances, lack of understanding and sickness beyond my control, for the last four years, I have been in and out of the Doctors offices with very high blood pressure and at often times symthums of a stroke. I have had bypass heart surgery in 1993. I still have angina attacks at times. I am (65 years old) and am on a disability social security fixed income. In 1994 my wife(66 years old) had a (eight bypasses on her heart surgery), she is much worse off than, I. We, both are regularly in and out of the clinics, If its not for medicine , then for health problems. And because, I did not know how to properly reply to the Office Action about replying to the examiners proposed claims format The patent application became abandoned, because, of lack of understanding and not being versed in Patent Law or Patent Office Procedure . My, son Steve K. Taylor could not make the reply for us, because he is not versed in any manner of Patent Law and his eyes site prevents him from reading or writing. Steve has eye site problems. We deeply regret, that we, because of lack of understanding on our part and (not) being versed in Patent Law and Patent Office Procedure. And that health and sickness are the reasons for the "unavoidable" delay .

[ Proposed Order ]  
Prayer

**"Relief Sought"**

**Pursuant to; "Renewed Petition under 37 CFR 1.137"**

1. That applicants be GRANTED; the relief sought;  
Pursuant to: "Renewed Petition under 37 CFR 1.137(a)" was unavoidable,  
and that the applicants, abandoned Patent application (09/973,626) be revived  
and renewed.
2. That applicants be GRANTED; the relief sought,  
Pursuant to: "Renewed Petition under 37 CFR 1.137 "  
To enter their "Additional claims, revisions, and drawing" with the  
Proposed Claims added to the Original Patent Application (09/973,626) ask for  
in the required reply by the examiner.
3. That applicants be GRANTED; the relief sought,  
Pursuant to: (35 U.S.C. 100 Definitions.) and (35 U.S.C. 101 Inventions Patentable)  
That the applicants be granted a (GRANTED PATENT), whereas applicants have  
invented and discovered a new and useful process, a composition of matter, materials  
and a useful process to create and manufacture the Taylor Pre-Paid Cash Cards and  
Products. Whereas the Patent Office has already issued a published patent  
application.

IT IS SO ORDERED

~~Taylor Corp.~~ Pre Paid Cash Cards Unlimited  
Inventors: John D. & Steve K. Taylor

**Proposed Claims**

**Amendments which represents, that which  
is currently disclosed (and originally)  
disclosed**

What I (we) claim is:

[01]

1. A method of payment utilizing a magnetic strip cash card comprising:

a.) (I) purchasing a pre paid cash card containing monetary value and defining elements of the method of operation of buying or purchasing a pre paid cash card with monetary value with cash money. From a outlet markets, over the counter or existing commercial financial institutions. Money stored in a cash card.

[02]

(II) a method of purchasing a cash card containing monetary value consisting of a variety of small, medium or large cash cards, of monetary valued sized pre paid cash cards. The present invention is a pre paid cash card purchased by all the public, with money, cash stored in a card. A variety of monetary valued cash cards ( \$50.00 to \$1000.00). Purchaser can purchase as many cash cards as they need. Pre paid cash cards are a hand wallet size card that has assorted colors for assorted monetary values, a number code for tracking, utilizing a magnetic strip and a bar code to be scanned upon sale at the point of activation for monetary value.

[03]

(III) a method and defining elements that teaches of that which is currently and originally disclosed in the original disclosure defined in the following manner:

Taylor Corp Pre Paid Cash Cards are pre paid cash cards for sale to all the public as

Page 1.

defined in copyright picture and text of the defining elements on page 130 in text and picture describing as follows;

Pre Paid Cash Cards, who needs it? Everybody does, sooner or later. Purchase a pre paid cash card today, use it up and throw it away, then buy another pre paid cash card or reload if you wish. A safe way to carry cash in a card, next to cash its the best way to go, "Bar None".

[04]

b.) (I)(a) presenting said cash card for payment at an existing monetary transaction terminal to spend the card as cash or receiving cash, by the purchaser or legal cash card holder, up to the monetary value in the cash card.

As many ways as you can spend money is as many ways as you can spend a Taylor pre paid cash card by utilizing a magnetic strip at an existing monetary transaction terminal. Pre paid cash cards monetary value are worth the amount paid by the purchaser, less a small user fee.

[05]

(I)(b) A method of payment utilizing a printed 20-diget number, having a PIN number, on a pre paid cash card, utilized in presenting the cash card for payment at an existing monetary transaction terminal on the internet, up to cash cards monetary value.

[06]

(II) presenting said cash cards for payment, money stored in a card, at an existing transaction terminal, to be spent as cash or receive cash from a card, by the purchaser or the legal card holder, utilizing a magnetic strip on a card, an existing monetary transaction terminal. Cards are Taylor pre paid cash cards unlimited, pre paid currency cards, pre paid money cards, pre paid funds cards, pre paid bucks cards and pre paid cash cards are the product and invention created by Taylor's Pre Paid Cash Cards Unlimited. Registered and originally

disclosed in applicants application  
09/973,626 art unit 2876 found on page 107  
& 130, assorted monetary cash cards and  
text in the registered copyright picture.

[07]

c.) receiving a receipt and a cash card  
balance information at the completion of a  
transaction by presenting a pre paid cash  
card with monetary stored value at an  
existing transaction terminal, utilizing a  
magnetic strip to verify the remaining  
monetary stored value by giving a balance  
receipt at the completion of the transaction.

[08]

2. The method of claim 1 further  
comprising:

a.) (1) reloading or adding to the value of  
the cash card by presenting the card at an  
existing transaction terminal, at public  
market outlets, over the counter, the internet  
or commercial financial institutions, that  
sales cash cards for money or cash.

(2) a method process, to reload a  
expired cash card, having no remaining  
stored monetary value. The public or legal  
card holder can transfer and restore  
monetary value into the cash card from their  
individual bank or monetary account, from  
their favorite monetary transaction terminal  
or returning to a market that sales cash  
cards. The card holder can reload the cash  
card, by utilizing the magnetic strip at an  
existing transaction terminal, by applying  
monetary funds to an existing cash card. A  
safe way to carry cash in a card or a safe  
way to carry large amounts of cash in a  
card.

[09]

3. The method of claim 1 further  
comprising:

a.) a pre paid cash card using a barcode  
on the front of the card that verifies the  
monetary value of the cash card at the point  
of sale, utilizing a scanner at an existing  
monetary transaction terminal. Receiving  
a receipt of stored monetary value in the  
card, at the sale of the cash card.

Page 2.

b.) using a secondary barcode on the back  
of the cash card would retrieve the same  
monetary stored value information  
original stored of the information of the  
last transaction used of the cash card.  
Should the magnetic strip be scratch  
damaged, sun blistered or polarized by  
other magnet sources that would wipe the  
magnet strip clean or card becomes faulty.  
Utilizing a scanner at an existing monetary  
transaction terminal.

[010]

4. A Taylor pre paid cash card  
comprising:

a.) a magnetic strip containing a 20-  
digit printed tracking number. Each card  
contains its own separate tracking number  
and serial number that identifies that one  
certain cash card and scratch off PIN  
number, that provides the stored monetary  
value of the cash card. And a 4-digit market  
outlet to tract where the cash card was sold  
from.

[011]

b.) a pre paid cash card presenting one  
or more barcodes printed on the cash card.

(1) A barcode on the front to validate  
the monetary stored value of the cash card  
at the point of sale..

(2) A secondary barcode on the back  
of the cash card to present at an existing  
monetary transaction scanner to receive  
monetary value left in the cash card,  
in case of magnetic strip damage.

[012]

c.) a pre paid cash card comprising:

(1) A method process to sale a card  
for cash, to use as cash in a card. A card  
sold at outlet markets (over the counter),  
commercial institutions, the internet and  
existing transaction terminals that sale pre  
paid cash cards.
